Peerage of Science

Editor may solicit reviews

Peerage of Science

The screenshot shows a web interface for a journal submission process. At the top, there are three tabs: "Author", "Reviewer", and "Editor". Below the tabs is a row of five icons: a left-pointing arrow, an open book labeled "Journals", an envelope labeled "Referral" (circled in red), a pen and paper labeled "Offer", and a recycling symbol labeled "Abandon". Below the icons, the text reads: "Current stage: Revision is due by April 9th, 15:38(GMT)". Underneath that is the tracking information: "Tracking: Fighting severe carbon loss of degraded ecosystems by jump-starting functions with restoration". A box labeled "STAGE 1: Number of reviews received: 5" contains the word "MANUSCRIPT" and two links: "Author Comment" and "PDF". Below this box, the word "REVIEWS" is partially visible.

Peerage of Science

Editor may solicit reviews + Peers can engage freely

The screenshot shows a journal submission interface. At the top, there are navigation icons for Journals, Referral, Offer, and Abandon. Below these, it indicates the current stage is 'Proceeding terminated' and the tracking information is 'Adaptive radiations and the biogeography of speciation'. A summary bar shows 'STAGE 1: Number of reviews received: 6' with 'MANUSCRIPT' below it. A red circle highlights the number '6'. Below this, there are tabs for 'Author Comment' and 'PDF'. The 'REVIEWS' section contains a table of review data:

Peer ID	Review Comment	Identity	Profile
Peer 325:	Major revision	Identity	Profile
Peer 313:	Minor revision	Identity	Profile
Peer 314:	Minor revision	Identity	Profile
Peer 328:	Major revision	Identity	Profile
Peer 324:	Major revision	Identity	Profile
Peer 312:	Major revision	Identity	Profile
