

Implementing GetFTR and Seamless Access on Literatum

Mike Markey

VP of Executive Account Management, Atypon

Elias Balafoutis

Product Manager, Atypon

September 2020

GetFTR

Where to start?

- Contact and register with the team at GetFTR
- Contact your Atypon Account Manager to request enabling GetFTR on Literatum
 - Receive and approve quote, if any

GetFTR

Atypon Delivery

- Issue API Credentials to publisher
- Send credentials to the GetFTR Central Team
- Schedule release to production (1-2 sprint cycles)

Seamless Access

Where to start?

- Contact your Account Manager to set up Seamless Access
- Specify UI requirements
 - Default option does/will exist
 - Customizations can be done
- Receive and approve quote, if any

Seamless Access

Atypon Delivery

- Implement UI customizations, if any
- Schedule release to production
