

**No. 1  
open access  
publisher**

**Increasing the visibility  
of scientific research  
since 1996**

MDPI is a publisher  
of fully peer-reviewed,  
open access journals  
with a focus on robust  
and rapid editorial  
processes.

Our aim is to ensure that high-quality research is verified and made available to the research community as quickly as possible.

MDPI stands at the forefront of the open access movement, having launched its first online journal *Molecules* in 1996.

Today, MDPI is a leader in open access publishing with more than 430 journals across all research disciplines. Every article is published under a Creative Commons Attribution License.

# Our Mission and Values

## Open Access

We offer access to science and the latest research to readers for free. All of our content is published in open access and distributed under a Creative Commons License, which means published articles can be freely shared and the content re-used, upon proper attribution.

## Timeliness and Efficiency

We aim to publish fast to ensure the latest research is rapidly disseminated, using thorough, precise editorial work. By assisting editors and reviewers all along the peer review process, a first decision is provided to authors in three weeks; once accepted, papers are published in under a week (median times for papers published in 2023).

## High Quality Service

We aim to provide a service that supports scholars and their work. By offering a range of different options, including journal publication at [mdpi.com](https://mdpi.com), early publication at [preprints.org](https://preprints.org) and conferences on [sciforum.net](https://sciforum.net), we support scientific communities worldwide to make a positive impact on research.

## Simplicity

All of our tools and services can be found in one place and prioritize user-friendliness. Simple processes keep our editorial process highly efficient.

## Flexibility

In a changing and evolving publishing environment, we are constantly adapting and developing new tools and services. By listening to feedback from authors, editors and readers, we can make changes to better meet the needs of our research community and keep MDPI relevant.

## Rooted in Sustainability

In addition to being at the root of MDPI and a key theme in our journals, we support sustainability by ensuring the long-term preservation of published papers, and the future of science through partnerships, sponsorships and awards.

# Publication by Subject Area

---

16.2% Biology & Life Sciences

---

15.9% Chemistry & Materials Science

---

14.4% Engineering

---

13.4% Environmental & Earth Sciences

# MDPI Services for Scholars

Sciforum is an event management platform that supports open science by offering the opportunity to participate in, as well as to organize, academic conferences.

[sciforum.net](https://sciforum.net)

MDPI Books offers quality open access book publishing to promote the exchange of ideas and knowledge across all disciplines.

[mdpi.com/books](https://mdpi.com/books)

Preprints is a multidisciplinary preprint platform that makes scientific manuscripts from all fields of research immediately citable and permanently available for everyone.

[preprints.org](https://preprints.org)

Scilit is a centralized platform for all published research literature.

[scilit.net](https://scilit.net)

SciProfiles is a social network platform powered by MDPI for researchers across the globe.

[sciprofiles.com](https://sciprofiles.com)

MDPI offers services to improve your English expression at any point prior to publication.
