

Your Publication, Optimized

TESTIMONIAL

"Working with J&J has been a game changer...The quality of service has been exceptional, and it has been a huge relief for me to be able to focus on the journal while J&J provides the editorial support I need. I would never go back to directly hiring a managing editor."

- Journal Editor-in-Chief

ADDRESSING PUBLISHER NEEDS ACROSS THE SCHOLARLY LANDSCAPE

› Editorial Management

Our team specializes in editorial office management, peer review industry standards, and best practices for scholarly journals.

› Production

J&J provides skilled production services including editing, composition, proofing, and project management for scholarly publications.

› Systems Support

J&J's team of Systems Support Experts will assist you in configuring your new or current peer review system to work the way you want.

› Copyediting

Our teams of copy editors edit research articles, professional society magazines, editorials, books, and more.

› Consulting

We help publishers and societies capitalize on our wealth of industry knowledge, publishing skills, and years of experience
