Karger

Karger Publishers – Connecting and Advancing Health Sciences

We are a worldwide publisher of scientific and medical content based in Basel, Switzerland. While continuously evolving, we have always been dedicated to serving the information needs of the scientific community, clinicians, and patients with publications of high-quality content and services in the health sciences.

Scientists can turn to us at every point in the entire research cycle and not just when they are ready to publish their results.

Moreover, we support the knowledge transfer from scientific research to clinical practice through publications and content services.

By acquiring the science communications agency Research Publishing International (RPI), we have expanded our service portfolio. From consultation to global promotion, RPI provides an end-to-end communication service to the scientific community, leaving even more time for research. We look forward to showcasing your work to the world.
